

## RoHS Compliance Declaration

### **EU DIRECTIVE 2011/65/EU and 2015/863/EU of the European Parliament and of the Council of 8 June 2011**

The Restriction of Hazardous Substances (RoHS3) Directive 2011/65/EU places rules upon European manufacturers of electrical and electronic equipment. The Directive's aim is to reduce the impact that electrical and electronic equipment has on the environment.

Under the provisions of the RoHS3 EU Directive 2011/65/EU (Article 3, [24]) defines, "Control and Monitoring Equipment" where "*industrial monitoring and control instruments*" means "*monitoring and control instruments designed exclusively for industrial or professional use*".

EU Directive 2015/863/EU, Annex II, states:

*The restriction of DEHP, BBP, DBP and DIBP shall apply to ... monitoring and control instruments, including industrial monitoring and control instruments, from 22 July 2021.*

The careful design and manufacturing policy of Michell Instruments Ltd's products already ensures that the substances specified within the RoHS3 & EU Directives 2015/863/EU do not appear within its products, and, should they do so, are in quantities below the permitted homogeneous limits of 0.1 % W/W or 0.01 % W/W as applicable.

Michell Instruments Ltd confirms that its products are in full compliance with the terms of the RoHS2 EU Directive 2011/65/EU and RoHS3 EU Directive 2015/863/EU.

Michell Instruments Ltd continues to monitor suppliers and material sources to ensure that compliance is maintained.

Michell Instruments Ltd.
