## Factsheet HP3x-series Hardware Update

Dear customers,

With the beginning of the year 2025 we present a hardware update for HP31, HP32 and HP-GTS. The implemented hardware update was necessary to make the existing devices mechanically more stable, durable and robust:

### Product HP31, HP32 and HP-GTS Enhancements / Improvements

#### Change of back Panel

- Material changes from TPR to ABS

#### Interface

- Micro USB C to USB-C
- Mechanical improvements, redesign PCB print for mechanical robustness

#### PCB Update

- Improved leakage drain consumption, extended lifetime
- Improved protection against deep discharge

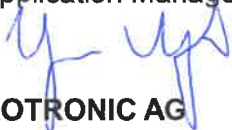

#### Change effective from Serial Number

- HP31 & HP-GTS SN: 525xxxx
- HP32 SN: 5241851

After consultation with production, we will have a smooth transition, which will take place by the beginning of the year 2025, depending on respective stocks.

With kind regards,

Yanick Ungricht
